PROJECTS

LiquidLounge

- Designed a cocktail application where users can log in and sign up. It features a section with 50 popular cocktails, which users can add to or remove from their favorites. Users can also create, edit, delete their own drinks, and review others' drinks.

Skills: JavaScript, React, Node.js(Express), MongoDB, Json Web Token(Authentication and Authorization), Tailwind CSS, Postman 2, MongoDB Compass, React Hooks

Order Eatz

- Designed an online-ordering application as a group project with three colleagues. Users can log in, sign up, create, edit, delete orders, and make a fake payment. This project improved my teamwork, communication, and Git branching skills.

Skills: JavaScript, Node.js(Express), React, MongoDB, Json Web Token(Authentication and Authorization), Tailwind CSS, MongoDB Compass, Postman 2

MovieGram

- Designed a movie application with Express-session for user creation and login. Users can create, update, delete their own movies, and add comments to others' movies.

Skills: JavaScript, EJS, Node.js(Express), HTML, CSS, MongoDB, MongoDB Compass, Express-session, 7 RESTful routes, Postman 2

Capitals Quiz Game

- Designed a quiz game about the capital cities of 20 well-known countries. The game includes a timer, allows players to quit anytime, and notifies them of their points at the end.

Skills: JavaScript, HTML, CSS, DOM Manipulations
